Working Experience

- **Axrail Sdn. Bhd.** | Feb 2020 – Present
  - **Familymart Sdn. Bhd.** | Mac 2020 - present
    - Involved in developing a website for admin portal and application for store manager which is known as Kitchen Dashboard System (KDS)
    - **Kitchen Dashboard System (KDS):**
      - Enhancement to make it support partial fulfilment which is order will only reject or cancel if mandatory product or all product is out of stock.
      - Create screen for order list and product out of stock list.
      - Enhancement to hide delivery order that is not assigned to rider.
      - Create backend function to save data.
    - **Admin Portal:**
      - Create page for few function
      - Fixing and enhancement for admin portal backend
    - Using AWS service as backend
    - **AWS service used**: Lambda, S3, Cognito, AppSync
